

LANDON

Hi, my name is Landon and I am 4 yrs old. I was diagnosed with B Cell ALL on November 15th, 2019. My parents noticed bruising, and how tired I was. I also have ASD, so I have a hard time verbally communicating my feelings.

My parents decided to call my doctor, and they ordered some labs. A few hours later, the doctor called them back, and told them to get me to Children's Hospital immediately.

We are happy to report, I am in REMISSION!!!

I will be in treatment for 2 1/2 years but am so grateful that my odds of recovery are 95%!

EVERY 2 minutes a child is diagnosed with cancer.

More than 40,000 children are in cancer treatment each year. **More than 15,000** children & teens will be diagnosed this year in the U.S.

95% of kids who win the fight against cancer, have other life-long side effects from the cancer and/or its treatment.

Since 1980, ONLY 3 drugs have been specifically approved & less than 10 drugs have been developed for use in children.

4% of government cancer research goes to childhood cancer.

WAYS TO SUPPORT

www.womenformacc.org

Women for MACC brings hope to families through research & awareness to end childhood cancer and related blood disorders. Your support of Women for MACC will benefit ongoing critical childhood cancer and related blood disorders research made possible through the MACC Fund.
