

Women for MACC, in partnership with
GIGI MKE Boutique, presents

Designed to Inspire

**Benefiting Pediatric Cancer &
Related Blood Disorder Research**

TUESDAY, NOVEMBER 1, 2022

10:30 a.m. Reception
12-1:30 p.m. Program & Lunch

Hyatt Regency Milwaukee | 333 W Kilbourn Avenue | Milwaukee, WI 53203

For 40 years, Women for MACC (Midwest Athletes Against Childhood Cancer) has inspired others to support our mission of bringing hope to families through research & awareness to end childhood cancer and related blood disorders.

Formerly known as Couture for a Cure, this flagship fundraising event has become much more than a fashion show. It's a day for family and friends of all backgrounds, ages and lifestyles to come together to enjoy a silent auction, wine pull, luncheon, fashion and, most importantly, to show their support of Women for MACC and the little heroes and angels who inspire us each day.

Partnering with GIGI MKE Boutique, we're excited to continue the tradition on Tuesday, November 1st with an event truly "Designed to Inspire."

With generous support from friends like you, Women for MACC has donated over \$5.4 million dollars to the MACC Fund, whose childhood cancer and related blood disorder research has driven the five-year survival rate for all childhood cancers to 80%.

**Please partner with us for Designed to Inspire and support
this important work to end childhood cancer
and related blood disorders!**

Thank you,

Cristen Berry

Designed to Inspire Co-Chairs: Alicia Buttchen Anderson, Stacey Meyer & Melissa Marney

Did you know...

EVERY 2 minutes a child is
diagnosed with cancer.

More than 40,000 children are
in cancer treatment each
year. More than 15,000
children & teens will be
diagnosed this year in the U.S.

95% of kids who win the fight
against cancer, have other
life long side effects from the
cancer and/or its treatment.

Since 1980, ONLY 3 drugs
have been specifically
approved & less than 10
drugs have been developed
for use in children.

Just 4% of government
cancer research goes to
childhood cancer.
